QCS Management Pvt Ltd.

A brief synopsis of our Professional Empowerment CPD training courses

1. **ISO 9001** focuses on meeting your customer requirements, enhancing their satisfaction and documenting the quality of your organizational processes. There are lots of benefits to gaining ISO 9001 certification. 62% of businesses reported qualifying for or winning more business as a result, as many tenders require ISO 9001 as a pre-qualifier. Almost three-quarters of businesses said that their internal processes were improved — so you'll also become a more efficient organization.
2. **ISO 27001** focuses on cyber security. Shockingly, 5 million data records are stolen each day worldwide. A data breach is expensive, not just in financial terms, but in terms of your reputation too. Gaining ISO 27001 shows that you take cyber security seriously and is a step towards GDPR compliance. The certification process will also give you independent insight into your current procedures and how they can be improved.
3. **ISO 14001** is the standard that sets a framework and criteria for an environmental management system. Certification can help your organisation improve your environmental practices, become more efficient and reduce waste — giving you the edge on competitors and improving your reputation.
4. **ISO 45001** is the standard to health and safety. It exists to help promote and protect the health (both physical and mental) of your employees. Improved occupational health and safety can lead to improved employee satisfaction, less sick days from work and a more efficient workforce.
5. **ISO 22000 - Food Safety Management System – Hazard Analysis and Critical Control Points.** A systematic approach to ensure effective control, identification and controlling microbiological, chemical or physical hazards in all stages of production from the receipt of raw material to the delivery of the final product. This course is suitable for aspiring delegates for Lead auditor, transition, internal auditor and Lead implementer based on this international standard. all graduates of this course will be eligible to impart trainings based on the followings;
6. **HACCP LEVEL I.** Induction training program: Level 1 outlines the basic food safety skills that all staff should demonstrate within the first month of employment. of commencing employment. This Level 2 HACCP course has been designed for workers of all levels within a food business, including catering, retail and manufacturing premises.
7. **HACCP LEVEL 2 :** while Level 2 outlines additional food safety skills that staff should be able to demonstrate within three to 12 months. This Level 2 HACCP course has been designed for workers of all levels within a food business, including catering, retail and manufacturing premises. By taking this course it helps your company to ensure compliance with EU Regulation (EC) No 852/2004 on the hygiene of foodstuffs – the law that requires all food premises to have an effective and efficient food safety management system in place. This Level 2 HACCP course will aid you to understand why and how a HACCP system is implemented, what the essential principles of HACCP are and what you can do to ensure the food you handle is safe for consumers to eat.
8. **HACCP LEVEL 3 :** Level 3 outlines food safety skills that managers and supervisors in food operations should demonstrate. This Level 3 HACCP course has been designed for Mangers and supervisors of all levels within a food business including Food Service, Retail and Manufacturing Sectors.
9. **Corporate Social responsibility:** Corporate social responsibility and sustainability are important issues for all businesses and ones that stakeholders have increasingly high expectations of. This Corporate Social Responsibility course aims to help learners understand how they can develop a CSR and sustainability strategy that ensures their business works in ways that are environmentally, socially and economically sustainable. By the end of the course, learners will have a good awareness of why CSR is important and how it can be implemented in their workplace.
