

Integrated Management Systems (IMS) Lead Auditor Training Programs

ISO 9001+ ISO 14001+ ISO 45001

Develop the Skills to Audit, Improve, and Lead Management Systems

Integrated Management Systems (ISO 9001+ ISO 14001+ ISO 45001) Lead Auditor training is designed for professionals who aspire to conduct first-party (internal), second-party (supplier), and third-party Certification audits in accordance with internationally recognized combined ISO Management Systems standards comprising of ISO 9001+ ISO 14001+ ISO 45001. This course will provide participants with the knowledge and practical auditing skills required to plan, conduct, report, and follow up on audits using a risk-based and process-oriented approach.

Whether you are an auditor, consultant, quality professional, manager, or aspiring certification expert, Lead Auditor training enhances your competence and strengthens your professional credentials.

Why ISO Training Matters

Build Competence. Strengthen Compliance. Drive Excellence.

ISO standards are globally recognized benchmarks for quality, safety, security, sustainability, and operational excellence. Organizations that understand and effectively implement these standards enhance their credibility, improve customer confidence, streamline operations, and strengthen risk management. ISO training equips professionals and organizations with the practical knowledge needed to interpret, implement, audit, and continually improve management systems based on internationally recognized standards. It transforms technical requirements into actionable business practices that deliver measurable results.

Integrated Management Systems (IMS) Lead Auditor [ISO 9001+ ISO 14001+ ISO 45001]

The Integrated Management System (IMS) Lead Auditor course combines Quality, Environmental, and Occupational Health & Safety Management Systems into a single, unified auditing framework. Participants learn how to audit multiple standards simultaneously, improving efficiency and reducing duplication across management systems.

Key Learning Outcomes

- Understand the integrated requirements of ISO 9001, ISO 14001, and ISO 45001.
- Apply a unified audit approach across quality, environmental, and OH&S processes.
- Identify common clauses and integration opportunities using the Annex SL structure.
- Plan and conduct integrated audits efficiently.
- Evaluate organizational risks, compliance obligations, and performance holistically.
- Drive continual improvement through coordinated management system audits.

Benefits of IMS Training

- Reduces audit time and resource requirements.
- Promotes streamlined management systems and documentation.
- Improves cross-functional collaboration and decision-making.
- Enhances organizational resilience and operational excellence.
- Equips professionals with broader auditing expertise valued across industries.

Ideal For:

Integrated management system professionals, lead and internal auditors, consultants, quality and HSE managers, compliance officers, and organizations implementing multiple ISO standards.

5-Days Lead Auditor Training Program Itinerary

Day 1 – Introduction to Integrated Management Systems

Module 1: Course Introduction

- Welcome and Course Orientation
- Learning Objectives and Expected Outcomes
- Participant Introductions
- Assessment and Examination Requirements

Module 2: Introduction to IMS

- Benefits of an Integrated Management System
- Annex SL – High-Level Structure (HLS)
- Process Approach
- Risk-Based Thinking
- PDCA Cycle

Module 3: Understanding the Standards

- ISO 9001:2015 – Quality Management System Requirements
- ISO 14001:2015 – Environmental Management System Requirements
- ISO 45001:2018 – Occupational Health & Safety Management System Requirements
- Common Clauses and Integrated Requirements

Module 4: Auditing Fundamentals

- Principles of Auditing (ISO 19011)
- Auditor Competence, Ethics and Behaviour
- Types of Audits
- Audit Programme Management

Practical Activities

- Clause Mapping Exercise
- Group Discussion
- Knowledge Quiz

Day 2 – Audit Planning and Preparation

Module 5: Audit Planning

- Establishing Audit Objectives
- Audit Scope and Criteria
- Risk-Based Audit Planning
- Audit Team Responsibilities

Module 6: Preparing for the Audit

- Document Review
- Context of the Organization
- Interested Parties

- Leadership and Commitment
- Planning Integrated Audits

Module 7: Audit Documentation

- Audit Checklists
- Audit Plans
- Working Papers
- Sampling Techniques

Practical Activities

- Develop an Integrated Audit Plan
- Prepare Audit Checklists
- Case Study
- Group Workshop

Day 3 – Conducting the Integrated Audit**Module 8: Audit Execution**

- Conducting the Opening Meeting
- Interview Techniques
- Collecting Objective Evidence
- Observation and Verification
- Process Auditing

Module 9: Auditing IMS Clauses

- Operational Planning and Control
- Support Processes
- Operational Controls
- Environmental Aspects & Impacts
- Hazard Identification & Risk Assessment
- Audit Report Writing
- Closing Meeting Simulation
- Corrective Action Evaluation
- Mock Examination

Day 5 – Practical Assessment & Final Examination

- Emergency Preparedness
- Monitoring and Measurement

Practical Activities

- Mock Audit
- Role Play
- Interview Simulation
- Evidence Collection Exercise

Day 4 – Audit Reporting and Follow-up**Module 10: Audit Findings**

- Conformities
- Nonconformities
- Opportunities for Improvement (OFIs)
- Classification of Findings

Module 11: Reporting

- Preparing Audit Reports
- Corrective Action Requests (CARs)
- Root Cause Analysis
- Verification of Corrective Actions

Module 12: Closing the Audit

- Conducting the Closing Meeting
- Audit Follow-up
- Surveillance and Recertification Audits

Practical Activities**Module 13: Integrated Audit Simulation**

Participants work in audit teams to conduct a complete Integrated Management System audit covering:

- ISO 9001:2015
- ISO 14001:2015
- ISO 45001:2018

Team Activities

Training Methodology

The program combines:

- Instructor-led interactive sessions
- Practical audit simulations
- Individual and group exercises
- Case studies
- Workshops
- Role plays
- Real-life audit scenarios
- Mock examinations
- Continuous assessment and feedback

Course Deliverables

Participants will receive:

- Comprehensive Training Manual
- Audit Checklists & Templates
- Practical Exercises & Case Studies
- Sample Audit Reports
- Examination Materials
- Certificate (upon successful completion)
- Post-training technical support

Duration: 5 Days (40 Hours)

Training Modes:

- Classroom Training
- Live Virtual Instructor-Led Training
- Corporate On-site Training
